The Origins and Evolution of The Trike Shop

A Vision Rooted in Innovation and Accessibility

Founded in the early 2010s by a group of passionate engineers and cycling enthusiasts, The Trike Shop was born from a desire to make cycling more inclusive, comfortable, and versatile. Recognizing that traditional bicycles might not meet the needs of all riders—especially those with mobility challenges, balance issues, or simply seeking a different riding experience—the founders set out to design high-quality tricycles that could serve multiple purposes.

Initially operating as a small workshop in a suburban garage, The Trike Shop quickly gained a reputation for craftsmanship and customization. Word of mouth spread among local cycling clubs, senior communities, and adaptive sports organizations, paving the way for the company's expansion into a dedicated manufacturing and retail operation.

From Local Workshop to Industry Leader

Over the years, The Trike Shop invested heavily in research and development, integrating cutting-edge materials and engineering techniques.
