A 2019 study by the South African Council for Educators highlighted that systematic practice with past papers correlates with higher pass rates, especially in mathematically intensive subjects.

In Pretoria's context, where competition for technical qualifications is high, students who incorporate past papers into their study routine report increased confidence and improved outcomes. Anecdotal evidence from educators supports this, noting that students familiar with question formats are more adaptable during exams.

Challenges Faced by Students

Despite their benefits, reliance on past papers is not without challenges:

- Over-reliance on Repetition: Students may focus solely on past questions, neglecting underlying concepts.
- Limited Scope: Past papers only reflect previous exam content; unforeseen questions can still appear.
- Quality and Relevance: Older papers may not align with current curricula or exam standards.
- Access Inequality: Not all students have equal access to high-quality resources, leading to disparities.

Case Studies from Pretoria Institutions

Several Pretoria-based colleges have implemented structured revision programs emphasizing past papers:

- Technical College A: Reports an increase in pass rates from 65% to 78% after integrating weekly past paper practice.
- Technical School B: Noted that students who used online repositories scored on average 15% higher than those who relied solely on classroom notes.
- Vocational Institute C: Faced challenges due to inconsistent access to digital resources, prompting the institution to print and distribute physical copies.
